

## THE WEST COAST

### MARSTRAND

**Sailing the Bohuslän coast** - Most people associate the Bohuslän coast with sun, sailing, fishing villages and the smooth, undulating rocky coastline and islands. What is so special about the archipelago isn't only the unusual natural environment but also all the fishing villages scattered along the coast. Not only are they blessed with an enormous range of restaurants with fresh seafood, they also have excellent shopping, a genuine archipelago culture, and each community has its own character. There are some 60 guest harbours along the coast and a large number of natural harbours.
